PROACTIVE FLEET
MONITORING

MAKING EVERYONE HAPPY WAS NEVER EASIER

As the IRS standard mileage reimbursement rate continues to increase, many companies are seeking alternative solutions. We can help you lower your mileage costs with a well-managed, owned fleet program. It starts with a **dedicated and responsive fleet advisor** – they're an extension of your team that **can minimize administrative burdens with accuracy, strategy, and flexibility** so you can get back to business. After teaming up with Enterprise Fleet Management, your organization can:

RETAIN TALENT

Help grow employee satisfaction and your reputation with newer, well-maintained vehicles equipped with the latest safety, technology and consistent branding

GAIN THE BENEFITS OF A NEWER FLEET

Right-size your fleet with a variety of makes, models and vehicle features to help minimize downtime, support sustainability efforts and improve driver safety

BUILD BRAND REPUTATION

Control how your fleet vehicles will present to the public, which can equate to free branding and instant brand recognition

GAIN PEACE OF MIND

Provide reliable transportation your employees are proud to drive. Newer vehicles offer dependability so employees can get where they need to go and do their job with confidence

See the impact a well-run fleet can have – on everything from employee pride to financial growth. And, how simple and successful it can be with Enterprise Fleet Management.
